DYMENT-KIDSTON

OTTO TOWNSHIP

SAMPLING PROJECT

RECEIVED
FEB 16 1989
MINING LANDS SECTION

LOCATION

The property which consists of 5 contiguous claims, unpatented, numbered L-891866 to L-891869 inclusive and L-917317, is situated in the NE 1/2 of Lot 5 Con VI and the SE 1/4 of the N 1/2 of Lot 6 Con VI, Otto Township, Larder Lake mining division.

ACCESS

The property is reached via Highway 112 from Highway 66 about three miles West of Kirkland Lake.

TOPOGRAPHY

The ground is characterized by sand and gravel ridged with numerous rock outcroppings. Overall the topography can be described as rugged. Vegetation is predominantly spruce and poplar with alder common on the edges of a small creek which traverses the property. Within the last year most of this area has been timbered.

LINECUTTING

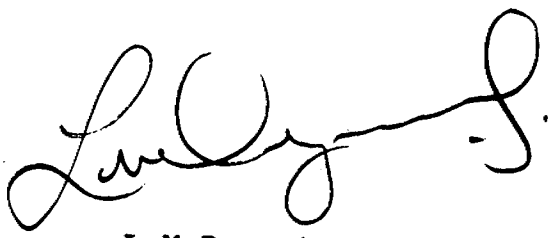

A 1500 foot baseline was cut and chained at 260 degrees for control.

SAMPLING

The samples were taken by L.M.Dyment and J.A.Kidston making the most of areas exposed by the recent timbering operation. All samples were taken in an argillaceous graphite unit with the exception of sample numbers 9 and 10 which were taken in an oxide iron formation.

CONCLUSION

Since this sampling a mechanical excavation program was undertaken and a more extensive sampling program is recommended.

Dear Sir:

Enclosed is a copy of Report of Work for Expenditure assessment work that was recorded by the Mining Recorder on July 8, 1988, on Mining Claims L 891868 and L 917317 in the Township of Otto.

We have no record that you provided the full reports and maps to the Minister within the sixty day period provided by Section 77 of the Mining Act.

Unless you can provide evidence by February 23, 1989, that the reports and maps were submitted as required, the Mining Recorder will be directed to cancel the work credits recorded on July 8, 1988.

Yours sincerely,

W.R. Cowan
